MINUTES

1. The meeting was convened at 11:30 a.m. in Room 1108B of the College Welcome Center by Jeffrey M. Scherer, Chairperson of the Student Success Committee.
2. Recommended approval of the Minutes of the January 12, 2017 meeting.
3. Doug McKibbon, Tony Milenkovich, Craig Evans, and Travis Kaup, Diesel Technology instructors, presented the program review of the Diesel Technology Program.

Enrollment in the Diesel Technology Program remains strong as does the job market. Salaries also indicate that there is a need for trained technicians in the Northeast area as well as nationally. Evidence of demand and efficiency was confirmed by the student credit hours (SCH) and faculty full-time equivalency (FTE), both of which exceed the thresholds established by the Coordinating Commission for Postsecondary Education (CCPE).

A consensus was reached by the Educational Services Committee to recommend continuation of the Diesel Technology Program at Northeast Community College as the committee feels that it is a tremendous program and exceeds the thresholds of the Coordinating Commission for Postsecondary Education.

4. With no further business to discuss, the meeting was adjourned at 12:06 p.m.
