Auto body technology is rapidly becoming more sophisticated, and most employers prefer applicants who have completed a formal training program in automotive body repair. Employment of automotive body repairers is expected to grow 12% over the next decade.

Northeast represents a way of thinking about higher education that proves it's possible to balance high-quality academics with high-impact experiences.

Depending on your interest area, you can earn either an Associate of Arts degree or an Associate of Science degree and transfer your Northeast credits to a four-year institution. If enrolling in this academic transfer program, please work closely with Northeast advisors and the transfer office at your four-year institution of choice as you plan your classes.

YOUR FAST TRACK

EARN YOUR ASSOCIATE DEGREE

At Northeast, you'll learn your chosen career from educated professionals. Our instructors have years of industry-specific experience.

A photograph showing three students in a workshop setting. On the left, a male student with long blonde hair, wearing a tan cap and safety glasses, is using a blue and black power tool on a large, red-painted metal engine component. In the center, a female student with brown hair, wearing safety glasses, is looking at the engine. On the right, a male student with a beard, wearing a blue cap and safety glasses, is also looking at the engine. The engine component is large and complex, with several circular openings and bolts. In the background, there are shelves with various tools and equipment.

Diesel maintenance is becoming increasingly complex, as more electronic components are used to control the operation of an engine. Employment of diesel service technicians and mechanics is expected to grow over the next decade.

NORTHEAST.EDU/DEGREES-AND-PROGRAMS

If you plan to study a concentration in biological sciences, you may complete a two-year program at Northeast and then transfer your credits to a four-year institution.

SAVE MONEY!

Start your bachelor's degree at Northeast and transfer earned credits to a four-year college or university.

WHY NORTHEAST?

Ranked as a top community college in the country, student success is at the forefront of everything we do. From cutting-edge technology to abundant hands-on learning experiences to beautiful facilities on welcoming campuses, Northeast drives success by providing foundational experiences and access to the most advanced tools.

From design and framing to wiring and plumbing, Northeast students build two 1600+ square foot homes each year.

Criminal Justice students set up and secure crime scenes and collect and process evidence in "The Crime House."

Northeast students detect changes in the body using the Bod Pod, which is one of seven in the state.

Wind Energy students gain hands-on experience 80 feet in the air to inspect, maintain, and repair a Micon 108 Wind Turbine.

Through a partnership with UNMC, nursing students can obtain up to a doctoral degree on Northeast's campus.

60+ medals and sweeping categories at SkillsUSA are testaments to the quality of the education at Northeast.

A 500+ acre farm that allows students to work with crops, livestock, and learn about maintaining operations.

The Cyber Security program is one of 70 two-year college programs in the United States with the CAE2Y designation.

STUDY ABROAD

Students at Northeast have studied abroad in Costa Rica, Czech Republic, Canada, Greece, Denmark, Germany, England, France, Italy, Spain, Ireland, and Scotland. We have also established relationships with other two-year colleges around the world and have signed exchange agreements with schools in Denmark and Great Britain. Our next destinations are Mexico's Yucatan Peninsula and Ireland.

EARLY COLLEGE

NO COST TUITION FOR HIGH SCHOOL STUDENTS

The Early College program at Northeast provides free tuition for all students currently enrolled in high school to take dual credit or college credit courses. Whether students want to pursue a bachelor's degree or start on a fast track to a career, both general education and career and technical education courses are available.

Classes are offered in a variety of delivery methods, including:

- Dual credit in your home high school
- Online
- Virtual
- Fridays @ Northeast
- Pathways 2 Tomorrow
- In person at any of our campuses

The benefits are many:

- No cost tuition for high school students
- Complete 12 credit hours, savings of \$1,536
- Complete 24 credit hours, savings of \$3,072
- Classes can lead into a program at Northeast
- Credits earned through completing classes can transfer to colleges and universities

Students who take college credit courses during high school are twice as likely to attend college after graduation.

There is no cost for tuition for high school students. However, some courses may require textbooks and/or other supplies, meaning students are responsible for covering any additional fees.
