

Advanced search in 4 steps

1 Access Advanced Search

Through the ProQuest Platform top menu.

Expand your search: search for synonyms

Using the **Boolean Operator – OR**

vehicle OR automobile

cloning OR genetics OR reproduction

Search for compound terms or exact phrases

putting the terms in **quotes (“”)**

“Public health” - “social media”

Retrieve term variations

using the **truncation character (*)**

*leader** returns *leader, leaders, leadership*

Use Proximity Operators

PRE: finds terms with x number of words between them, in the order they are entered in the search.

fiber PRE/2 glass

NEAR: finds terms with x number of words between them, regardless of the order in which they occur.

television NEAR/5 violence

2 Select where to search/limit search

1 Enter the search terms in the form

Advanced Search Command Line Thesaurus Field codes Search tips

anxiety or depression in 2

AND 1 mobile NEAR/2 phone OR cellphone in

AND teen* OR adolescent OR juvenile in
