

# Americarts

Americarts is an indoor, year-round, family entertainment center set to open in Norfolk, NE in November 2023. Americarts will offer high speed electric Go Karts on 3 different tracks for all-age fun. The multi-level track requires a license and a helmet since karts may race at speeds of 40mph. Additional attractions include a roller rink, an inflatable park, amusement ride bumper cars, virtual reality games, arcade games, a restaurant and bar, and party rooms for both children and adults.

Americarts is committed to offering fun for everyone! Accessibility is at the forefront of our design, allowing for people of all abilities and ages to enjoy the attractions. There will be go karts with hand controls, rather than foot pedals, and/or two seats karts available at each track. Other accessibility features include calming and quiet sensory nooks within the facility, large ADA bathrooms with an adult changing table, a space to temporarily kennel a service animal, designated arcade games that have reduced sound and no flashing lights, and more!

Fun can be educational too, which is why we offer STEM and Educational Field Trips! Our **Race 2 Learn Academy** is available Monday-Friday to student groups ages Pre-K through Postsecondary. Career exploration activities and student internships will be available as well!
